

Optimized for increased wellness and healthier profits.

At GLC Minerals, our line of animal feed and nutritional products is designed to elevate cattle and poultry performance to give you a competitive edge. By supplying a consistent and digestible source of minerals, our Agrical and Poultrycal products improve overall

animal health and wellness on farms throughout the Midwest. Our calcium products are also used as feed supplements for other animals – including equine, birds, wild game and domestic animals.

Agriculture Products – Typical Physical Characteristics

	Agrical 300	Agrical 345	Agrical 450	Agrical 600	Poultrycal 120	Poultrycal 123
Moisture (%)	<1.0%	<1.0%	<1.0%	<1.0%	<1.0%	<1.0%
Bulk Density Loose: lbs/ft3	84	93	86	61	90	92
Bulk Density Compacted: lbs/ft3	94	104	100	77	102	103
Calcium Carbonate (CaCO ₃)	97.20	97.20	97.20	97.20	97.20	97.20
Elemental Calcium (Ca)	38.80	38.80	38.80	38.80	38.80	38.80

Agriculture Products – Typical Particle Size Distribution % Retained
